Positive Patient ID
& Process Solutions

Poly ID Bands

The Poly Wristband

The Poly Wristbands offer a quick and effective solution for handwritten patient information or adhering printed labels with patient information. These wristbands are suitable for all hospital environments, from short visits to extended stays. The security snap enclosure helps minimize the risk of patients intentionally removing their wristbands. The poly wristbands are available with or without protective shield covers; the protective shield cover provides protection of patient identification data from moisture, alcohol, anti-microbial solutions.

Patient Safety

- Strong and secure poly material with snap closure to prevent tampering or reuse
- Available with protective shield cover to resist moisture, alcohol, and hand sanitizer for additional protection of patient identification data
- Latex and phthalate free

Durability

- Lightweight, non-stretch, comfortable material for stays up-to 7 days
- Scratch-resistant, waterproof, and adjustable to any-sized wrist

Write-On or Imprint

- Directly write-on wristband or adhere printed label to wristband to communicate patient information

Highly Versatile

- Available in a wide range of colours and can come with a variety of labels as additional purchase
- Personalized printing of alerts onto wristband available upon request

4018

The 4018 Poly Adult Wristband comes in color-specific, pre-printed options to quickly alert medical staff of special precautions and medical care needs of the patient. The secure snap closure prevents tampering or reuse, which enhances overall patient safety. These wristbands are also resistant to water, alcohol, hand sanitizers, and general cleansers.
