Positive Patient ID
& Process Solutions

Tyvek ID Bands

The Tyvek Wristband

The Tyvek Wristbands offer the most cost-effective patient identification solution, especially for short hospital visits lasting up-to 2 days. These wristbands can serve as a secondary band to quickly alert staff of special care required for the patient and provide the option to write-on information. The tamper resistant die-cut adhesive closure provides a trouble-free application and ensures patient safety. A variety of laser or thermal labels are available upon request to complement and adhere to the wristband.

Economical

- Most cost effective solution with Tyvek ecopaper material
- Recommended for short visits lasting up-to 2 days

Patient Safety

- Strong, non-transferable adhesive closure provides maximum patient safety
- Latex-free and single-use disposable

Write-On or Imprint

- Directly write-on wristband or adhere printed label to wristband to communicate patient information

Easy Application

- Includes a tamper resistant die-cut adhesive closure for trouble-free application

Highly Versatile

- Available in a wide range of colours and can come with a variety of labels as additional purchase

The Tyvek Wristband

The Tyvek Adult Wristband is the most cost-effective patient identification solution for hospital visits up-to 2 days. The special adhesive design with tamper-resistant, durable, latex-free and single-use disposable material provides an easy application and maximizes patient safety. The Tyvek wristband is recommended as a secondary band to quickly alert staff of special care required for the patient and provides the option to write-on information or adhere a label.
